

INSTRUCTIONS

1 This is a dual purpose form valid for 6 months from the date processed (located on the front of the form in the upper right corner). There are two choices in block #1: (a)Registration Application/Parentage Verification Kit Request; (b)Parentage Verification Kit Request *ONLY*.

If this is an application for registration of an unregistered animal and a parentage verification kit request, check the appropriate box, and leave the registration # box in the upper left corner blank. If the application for registration is for a foal that is to be shown *under halter* prior to receipt of the official registration certificate, the assigned name and assigned registration number (upper left hand corner) as they appear on the copy of this form returned with the parentage verification kit may be used for a period of six months from the processing date.

If this is a request for a parentage verification kit *only* for an animal foaled before 10/1/93 but already registered, *the registration certificate must accompany the request*. This form may also be used to retype a previously tested animal. In either case, check the appropriate box in block #1 and enter the animal's registration number in the registration number box in the upper left corner. Complete all blocks except #9.

2 NAME: If this is an application for registration, provide three name choices in block #2. Names are limited to 25 characters including spaces & apostrophes. Do not use the line for "office use". If this is a parentage verification kit request only, please enter the registered name in the "first choice" space.

3 BREEDING INFORMATION: Enter exact date of foaling. Enter date mare was bred. (*For parentage verification request only, breeding date is not required.*)

3A Indication of the state in which a foal is born will allow records to be kept that could be used in states where awards are available through agricultural agencies. (*Optional*)

4 In block #4, indicate whether the animal to be registered and/or parentage verified is a stallion, mare or gelding.

5 COLOR: Choose one base body color. Then choose a dilution, and/or modifier, and/or pattern as applicable. If the animal is overo, sabino, tobiano, or tobiano/sabino, you must submit photographs showing front, back and both sides of the animal. The application will be returned if this area is not completed. This will cause a delay in processing your application. *For example: Base body color - Black, Modifier - Roan, Pattern - Sabino. May be applicable depending on animal.*

6 BODY MARKINGS: In block #6 outline, with dark solid lines, all white markings of horse represented by this application and draw all scars and brands. Include markings on sides of head and chin. If there are no markings, check the box marked none.

7 FACE MARKINGS: Outline, with dark solid lines, all white on face, lips and chin. Indicate dark spots within white areas. Give written description as blaze, strip, star, snip or bald. If there are no markings, check the box marked none.

8 SCARS, BRANDS, UNUSUAL MARKS: Give written description and location.

9 SHIP PARENTAGE VERIFICATION KIT TO: Print name and street address where parentage verification kit may be shipped, if different from applicant's address or if applicant's address is a post office box.

10 SIRE AND DAM: *Supply complete, accurate information!* Carefully enter the registered names and numbers of both the sire and dam in block #10. Also, enter stallion report number for this service (*except on parentage verification kit request only, when it is not required*). Obtain signatures of mare owner at foaling time and stallion owner at time of service. Print the name (signature not required) of mare owner at time of service.

(*Not required if this is a parentage verification kit request only.*) When foal application is being used for a foal that results from the use of retained frozen semen, the owner of the semen will be allowed to sign for the breeding provided he/she has filed a Retained Semen Disclosure Statement. In order for the Association to accept the signature of anyone other than the recorded stallion owner at the time of breeding, the Certificate for Frozen Semen must be endorsed by the current owner of the frozen semen.

10A Frozen semen certificate number must be completed and frozen semen certificate attached to the application for foals that result from the use of frozen semen. Failure to include the certificate will cause the Registration Application to be incomplete.

11 OWNER/APPLICANT INFORMATION:

Owner's signature required! Print name, address and phone number of owner. Applicant should enter the date of filing in the space provided in the upper right corner. *If the person preparing this document is someone other than the owner of this animal, that person's signature is also required.*

12 FEE SCHEDULE: Consult the fee schedule at right and enter appropriate fees in block #12. Enter "FREE" on registration fee line if you wish for this to be your free registration. Enter certified mail fees on line marked other.

REGISTRATION REQUIREMENTS

Any person or persons who shall willfully register or record a false pedigree shall be forever barred from making further registrations and the registration of such false pedigree shall be canceled.

- Application for registration must be typed or in ink. This application becomes an important part of the records of the Association. Every care should be exercised in giving dates, markings, etc.

- All foals, in order to be registered, must be the progeny of a parentage verified, TWHBEA registered stallion and mare.

- All foals must be parentage verified before a certificate of registration will be issued.

- The recorded owner of the dam at time of foaling may transfer the unregistered foal by completing a **Transfer Report/Bill of Sale**. The appropriate fees (both transfer and registration) must accompany the registration application. To transfer an unregistered foal, leave block #1 on the Transfer Report/Bill Of Sale blank, but complete block #2 which asks for the year of foaling and the dam's registration number.

- Mailing responsibility: TWHBEA takes no responsibility for the certificates of registration once they are mailed to the owner. The person applying for transfer or registration is solely responsible for the accuracy of the mailing address. Certified mail or special delivery may be requested by the applicant at his or her expense.

- Free Registration: TWHBEA members are entitled to register one foal free each year their dues are paid, provided the dam of said foal is recorded in said member's name on date of the foal's birth, and provided the foal is registered within six months of foal date. Dues must be paid for the calendar year in which the foal is born. *This free registration must be requested at the time the application for registration is submitted.* Adjustments will not be made later, nor will the free registration be automatically granted unless requested.

SCHEDULE OF FEES

(Effective January 1, 2007)

TWHBEA MEMBERSHIP OPTIONS

Adults 18 or over may chose between annual dues which are \$60 or lifetime memberships which are \$1,000. Both include a subscription to the *Voice* magazine. Adult members also receive, during each paid dues period, a free foal registration, provided the dam of the foal is recorded in the member's name on the date of the foal's birth, and provided the foal is registered within six months of foaling. *The free registration **must** be requested at the time the paperwork is submitted. **No** adjustments will be made later; the free registration will not be automatically granted.*

Individuals under 18 may become a junior member for \$10 annually and conduct business at the reduced membership rate. However, junior memberships do not include the free foal registration or a subscription to the *Voice*.

REGISTRATION OF FOALS

(*The fee, which must accompany application, is based on the date the application is postmarked and the membership status of the owner of the mare at the time of foaling.*)

Foal Application*	Member	Non-Member
